Blockchain: Data privacy issues and mitigation strategies

January 11, 2023 | Articles & Books

Davis Polk partners Matt Bacal and Pri Shah co-authored “Blockchain: Data privacy issues and mitigation strategies” in *Practical Law*. In the article, Matt and Pri, along with their co-authors, Matthias Berberich and Carolin Raspé, both counsel at Hengeler Mueller, discuss blockchain technology and its tensions with data privacy concepts and laws, and potential strategies for organizations employing blockchain applications to bolster privacy compliance.
