This chart shows the number of tasks for swap dealers and major swap participants in CFTC and SEC releases that Davis Polk has extracted and categorized as part of our Regulatory Hub implementation website. As the rulemaking process matures, "progress" will shift from regulatory rulemaking to market implementation.

In the spirit of transparency, several financial regulators have released details of their meetings with outside participants on Dodd-Frank issues. Based on the information available, there have been at least 2800 meetings with these regulators since July 1, 2010. Joint meetings (of which there were more than 200) are counted separately for each participating regulator.
About the Progress Report

- The Davis Polk Dodd-Frank Progress Report is a monthly publication that uses empirical data to help market participants and policymakers assess the progress of the rulemaking and other work that has been done by regulators under the Dodd-Frank Act. [Access previous reports on our website.]

- The Progress Report was developed using information from Davis Polk’s subscription-based Regulatory Tracker™ product. For more information on the Regulatory Tracker, please contact tracker@davispolk.com or [view our brochure].

- Required, proposed, final and missed rulemakings and studies are counted based on Davis Polk’s tally of statutory requirements in the Davis Polk Regulatory Tracker™. An agency’s rule release may satisfy several statutorily required rulemakings.

- Where multiple agencies are required to issue a rule or study jointly, the requirement appears in each of their totals, which we believe most accurately reflects the staff burden on regulatory agencies.

- The term Bank Regulators includes the Board of Governors of the Federal Reserve, the FDIC and the OCC.
