

Getting the Deal Through: Private M&A 2023

October 14, 2022 | Articles & Books

Davis Polk partners Will Pearce and Louis Goldberg are delighted to be contributing editors of the updated edition of Lexology's *Getting the Deal Through: Private M&A 2023*, a comprehensive overview of the laws, regulation and market practice governing private M&A transactions in 39 jurisdictions worldwide.

Davis Polk contributed several of the jurisdictional chapters, as well as an editorial piece focused on similarities and differences between UK and US private M&A transactions and acquisition agreements; an article exploring the increasing importance of data privacy and cybersecurity in global deal making; and an article discussing the growing number of jurisdictions that have adopted foreign direct investment screening mechanisms, which aim to determine whether certain investments raise broader national security or other "public interest" concern.
