Notes to table:

- 1 To be submitted one year after submission of the 5(b)(vii) report
- 2 Timeline of these reports to be determined based on submission of other reports
- 3 To be submitted one year after establishment of framework for international engagement

Additional points:

- The interagency coordination process required by Section 3 of the EO also includes the following departments or agencies as appropriate, though not in relation to a particular action item: Defense, the Domestic Policy Council, OIRA, and the NSF
- Primary actors are generally directed to issue a report or take an action, though sometimes these actors—usually the independent agencies—are instead “encouraged” to consider a topic or “invited” to participate
